

CABLE TYPE KROMBERG + SCHUBERT 70MM² 64997451 M32

1089.32.184.04

Contact sleeve Type 64997451 M32

- Based on Cable Type Kromberg + Schubert 70mm² 64997451
- Crimped and pluggable EMC Shield contact solution
- Designed for the highest shielding currents for all high-voltage cable types and engine-power classes.

PRODUCT DESCRIPTION

Agros new EVolution EMC Cable Gland is based off of a wide range of competitor glands. Below is the list of part number required to make complete EVolution EMC Cable Gland.

Cable Type Kromberg+Schubert 70mm² Art. 64997451

Compression nut: Art. Nr: 1089.32.01LF

Sealing insert: Art. Nr: 1089.32.97.184.03

Supporting ring: Art. Nr: 1089.184.05

Contact sleeve: Art. Nr: 1089.32.184.04

Lower part short version: Art. Nr: 1089.32.02LF

Lower part long version: Art. Nr: 1189.32.02LF

Compression insert tool: Art. Nr: 4801.32.01

Flange insert tool: Art. Nr: 4801.184.01

TECHNICAL DATA

GENERAL DATA

Thread Size (G)	M32
-----------------	-----

MATERIALS

Temperature range	-40°C ... +140°C
-------------------	------------------

ADDITIONAL DATA

Pack size	25
Additional features	Solution for Kromberg + Schubert 64997451

Cross section

70 mm²
