

## TAKEX - J SERIES INDUSTRIAL PHOTOELECTRIC SENSOR

JT10R  
PHOTOSENSOR J SERIES T/BEAM RE

- Large connection space, substantial screws
- This photoelectric sensor can be plugged into the base
- Programmable time function 0.1-10 s
- IP66

### PRODUCT DESCRIPTION

### TECHNICAL DATA

|                             |                        |
|-----------------------------|------------------------|
| Approvals                   | CE                     |
| Distance max                | 10000 mm               |
| Distance min                | 0 mm                   |
| Electrical connection       | Terminal               |
| Function                    | Dark on / Light on     |
| IP class                    | IP66                   |
| Light type                  | Red LED                |
| Light/dark switching        | Yes                    |
| Output                      | Relay                  |
| Photocell technology        | Transmitter / receiver |
| Reaction time               | 5 ms                   |
| Temperature operational max | 55 °C                  |
| Temperature operational min | -25 °C                 |
| Voltage ac/dc max           | 240 V                  |
| Voltage ac/dc min           | 24 V                   |
