

CORNER HINGE 180° POLYAMIDE

325006

Corner hinge, 180°, 1.2-1.5mm, polyamide

- For plated thickness 1.2-1.5mm
- Glass fibre reinforced polyamide
- 180° opening angle

PRODUCT DESCRIPTION

The hinge gives you a 180° opening angle.

Only the frame part needs to be assembled, which is done using a screw with a nut on the inside. The door part is automatically fixed in the door the moment the shaft is pressed into place.

Universal right or left mounting.

For plate thickness 1.2 - 1.5mm.

Materials:

Door part and frame part: Fiberglass-reinforced polyamide, black.

Axle: Delrin.
