

## CABLE CRIMPING MACHINES

V10CP000007  
SC05 universal

- Versatile Cross-Section Processing
- Efficient Crimping with Quatro-Crimp Technology
- User friendly operation and Quick tool change
- Precision in every Crimp
- Adaptable for various contacts and configurations

### PRODUCT DESCRIPTION

### TECHNICAL DATA

|                                     |                                   |
|-------------------------------------|-----------------------------------|
| <b>Air pressure</b>                 | 5,5 bar                           |
| <b>Crimping length CL</b>           | 6 - 18 mm                         |
| <b>Crimping range</b>               | 0.5 - 6 mm <sup>2</sup>           |
| <b>Crimping range ferrules</b>      | 0.5 - 6 mm <sup>2</sup>           |
| <b>Crimping range twin ferrules</b> | 2 x 0.5 - 2 x 2.5 mm <sup>2</sup> |
| <b>Cycle time</b>                   | 1 s                               |
| <b>Dimension (mm)</b>               | 165x405x240                       |
| <b>Infeed length</b>                | 13 mm                             |
| <b>Power supply</b>                 | 100 V                             |
| <b>Weight</b>                       | 12 kg                             |
