

## ZEBRA FS70 SMART CAMERA

FS70-CM20D5-0C00W  
FS70, 2.3 MP, DPM, 2D

- **Easy Setup:** The FS70 features Auto-Tune for automatic setup, ensuring consistent and reliable read rates with just one button press
- **IoT Ready:** It can send images to Zebra Savanna or other cloud services, facilitating compliance with industry regulations without the need for server management
- **Power Options:** Supports Power-over-Ethernet (PoE) for reduced setup complexity, and can also be powered via a standard 24V DC supply or USB-C
- **Customizable Scanning:** The FS70 supports various external C-mount lenses and lighting solutions, allowing for flexibility in addressing complex application requirements
- **Robust Performance:** With an operating temperature range of 32°F to 113°F and environmental sealing rated at IP65 and IP67, the FS70 is designed for durability in industrial settings

### PRODUCT DESCRIPTION

The FS70 is the ultimate scanner when it comes to customization. By giving the user a variety of options, it can achieve flawless tracking in virtually any application and any environment. Choose from four image sensors and a world of C-mount lenses and lighting options. Zebra's powerful and intuitive Aurora software platform gives you a tool to easily set up, deploy and run the FS70. Through a simple purchase of licenses, advanced functions can be added to meet new needs.
