PRODUCT DESCRIPTION

The Sony Alpha 9 II is a professional-grade full-frame mirrorless camera, designed for high-speed performance and reliability. It features a 24.2 MP stacked CMOS sensor with integrated memory, allowing for blackout-free continuous shooting at up to 20 frames per second with AF/AE tracking. This camera excels in capturing fast-moving subjects, making it ideal for sports and action photography. Additionally, it offers real-time eye autofocus, enhanced subject tracking, and advanced connectivity options such as FTP file transfer for rapid image delivery. The durable, weather-sealed body ensures reliable performance in challenging conditions.
