PRODUCT DESCRIPTION

The Advantech MIC-711D-ON3A1 is an AI edge computing platform based on the NVIDIA Jetson Nano. It is designed for compact AI applications, offering real-time processing capabilities for edge AI tasks. The system features multiple I/O interfaces, including USB, LAN, and HDMI, making it suitable for various industrial AI applications like video analytics, robotics, and IoT. Its compact size allows for easy deployment in space-constrained environments.
